

Values of $1234 + 1234 = 2468$

Oops, array out of bounds went to far, better go back to 0! , Early Termination

Reason: 4

Values of $1234 - 1234 = 0000$

Oops, array out of bounds went to far, better go back to 0! , Early Termination

Reason: 4

Is A equal to B true

Is A less then to B false

There seems to be a problem: This is not a valid, D! Not a valid number!

There seems to be a problem: This is not a valid, E! Not a valid number!

The the sign of F positive will be 1, negative will be -1 and F is : -1

Cloning G from F.clone method and printing out the value of GThe values of G is:

12The sign of G is : -1
